To Whom It May Concern:

SickKids Foundation is pleased to share an exciting opportunity to support The Hospital for Sick Children (SickKids) through **Coding for SickKids**. This ongoing charitable initiative has been led since 2024 by a group of high school students, under the leadership of founder and team captain Ethan Yan Xu.

Funding from this event will support the hospital's highest priority to ensure our young patients continue to receive the best care that science, technology, and compassion have to offer – here in Ontario and around the world.

To help ensure the success of this initiative, the organizers are seeking support from companies, organizations, and individuals who share their vision for improving child health. I hope you will consider supporting this meaningful effort. Your contribution will not only help this group of young leaders achieve their fundraising goals, but will also make a lasting difference in the lives of children today and for generations to come.

Please note this letter is valid for one year from the date issued. Should you have any questions, please email me at Jessica.Zhang@sickkidsfoundation.com

Please direct all fundraiser inquiries to the organizer:
